disclosure.

## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1 and 2 are allowed.

2. The following is an examiner's statement of reasons for allowance:

3. Regarding claim 1, the references of the prior art of record fails to teach or suggest the

combination of the limitations as set forth in the claim: the anion generator having a coating

layer coated with titanium dioxide serving as a photocatalyst so as to perform air purification and

specifically comprising the limitation of a metal fiber brush mounted in the anion generator, the

brush including numerous metal fibers, each of the metal fibers being formed on an outer surface

thereof with numerous tiny projections, each of the projections having a sharp tip.

4. Regarding claim 2, the references of the prior art of record fails to teach or suggest the

combination of the limitations as set forth in the claim: an ion generation voltage induction unit

for converting the AC electric power applied to the interference protection unit into DC electric

power of -5 KV and generating pulses with a frequency multiplied by an integer ratio by a diode-

capacitor multiplier and specifically comprising the limitation of a metal fiber brush for

receiving current from the ion generation induction unit.

## Citation of relevant prior art

5. The prior art made of record and not relied upon is considered pertinent to applicant's

Prior art Kwak (USP. 6,841,136) disclose lighting equipment having an anion generator.

Prior art YU (US 20030010211) disclose air purifier.

Page 3

Prior art Reeves et al (USP. 6,749,667) disclose electrode self cleaning mechanism for electro-kinetic air transporter conditioner devices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Inquiry**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuc D. Tran whose telephone number is (571) 272-1829. The examiner can normally be reached on M-F Flex hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong can be reached on (571) 272-1834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
